

EXHIBIT 621 – Pattern of Retaliatory Orders of Protection (Steven Pepe, Saul Villalobos)

In 2018, Steven Pepe filed for an order of protection against me in Dutchess County Family Court — a case that mirrored the retaliatory tactics later used by Saul Villalobos in Florida. Though the 2018 case may be sealed or unavailable, I was the named respondent and experienced firsthand the procedural targeting and reputational harm. These acts were not isolated. They reflect a coordinated effort to silence my testimony, discredit my objections, and obstruct public accountability.

In that filing, Steven Pepe falsely claimed that his underage daughter was living with him at the time. This was categorically untrue. She has never lived with him. In fact, Steven Pepe made no effort to visit or maintain a relationship with his children. I possess emails from his ex-wife confirming this, and the truth was known across the entire family. This falsehood was not incidental — it was strategic. It was used to manufacture credibility, discredit me, and initiate a pattern of retaliatory filings that later reappeared in Florida through Saul Villalobos.

I now thread this history into the Bronx record and reserve the right to demand full review.

My 100% IRREFUTABLE EVIDENCE imposes upon every officer of the court, every fiduciary, and every public servant a non-discretionary duty to act. This duty is not governed by the subjective interpretations of statutory law — which are often shaped by political interests and judicial discretion. It is governed by the immutable Laws of God, which demand truth, justice, and accountability without delay or distortion.

EXHIBIT 622 – Fraudulent Probate Conduct (Villalobos & Hoover)

In the Florida probate of my father, Eugene Pepe, I served as the court-appointed personal representative from October 21, 2021 through March 2023. During that time, Saul Villalobos — acting as a real estate agent — fraudulently submitted a revised contract for the sale of my father's home without my consent. This contract was sent directly to my attorney, who then forwarded it to the court without notifying me. I possess evidence of this unauthorized submission.

Despite this, both Saul Villalobos and his supervisor, Khaleb Hoover, falsely testified in court that they had done nothing wrong. Their statements were knowingly false and part of a broader pattern of procedural manipulation and reputational harm. This conduct mirrors the tactics used by Steven Pepe in New York and reflects a coordinated effort to silence my objections, obstruct my role as personal representative, and derail public accountability.

I now thread this misconduct into the Bronx record and reserve the right to demand full review.

My 100% INDISPUTABLE EVIDENCE imposes upon every officer of the court, every fiduciary, and every public servant a non-discretionary duty to act. This duty is not governed by the subjective interpretations of statutory law — which are often shaped by political interests and judicial discretion. It is governed by the immutable Laws of God, which demand truth, justice, and accountability without delay or distortion.

EXHIBIT 623 – Demand for Judicial Review of Probate Case 21-CP-001212

I respectfully request that every judge reviewing this matter — in Surrogate's Court, Appellate Division, or federal venue — examine the Florida probate case 21-CP-001212 IN RE: Estate of Eugene Pepe, in which I served as personal representative from October 21, 2021 through March 2023. In that case, both Steven Pepe and Linda Cattano filed objections to my role as personal representative. Their objections were riddled with inconsistencies, falsehoods, and strategic omissions. These filings mirrored the retaliatory tactics used in New York and were part of a coordinated effort to silence my testimony, obstruct estate administration, and derail public accountability.

I now thread these objections into the Bronx record and demand full judicial review of their conduct, statements, and procedural impact.

My 100% CONCLUSIVE EVIDENCE imposes upon every officer of the court, every fiduciary, and every public servant a non-discretionary duty to act. This duty is not governed by the subjective interpretations of statutory law — which are often shaped by political interests and judicial discretion. It is governed by the

immutable Laws of God, which demand truth, justice, and accountability without delay or distortion.

EXHIBIT 624 – False Statements by Steven Pepe

Steven Pepe states, in his 2018 Family Court filing, that his underage daughter was living with him at the time. This statement was false. She has never lived with him. In fact, Steven Pepe made no effort to visit or maintain a relationship with his children. I possess emails from his ex-wife confirming this, and the truth was known across the entire family. His statement was not a misunderstanding — it was a deliberate fabrication used to manufacture credibility and discredit me in a retaliatory order of protection.

This tactic mirrors the falsehoods later used by Saul Villalobos and Khaleb Hoover in Florida probate proceedings, where they denied wrongdoing despite documented misconduct. I now thread Steven Pepe's false statements into the Bronx record and demand full judicial review of his credibility, intent, and procedural impact.

My 100% UNDENIABLE EVIDENCE imposes upon every officer of the court, every fiduciary, and every public servant a non-discretionary duty to act. This duty is not governed by the subjective interpretations of statutory law — which are often shaped by political interests and judicial discretion. It is governed by the immutable Laws of God, which demand truth, justice, and accountability without delay or distortion.

EXHIBIT 625 – Initial Public Safety Alert: Mike Peterson's Report

On or around [insert date], Mike Peterson contacted law enforcement to report a foul odor emanating from my father Eugene Pepe's home. This call triggered the initial public safety response and ultimately led to the discovery of my father's death. Mike Peterson's report was not only accurate — it was urgent, necessary, and deeply tied to the timeline of institutional neglect that followed.

Despite this alert, the handling of my father's remains, the wrongful cremation, and the procedural exclusion that followed reflect a breakdown in public duty and estate oversight.

My 100% IRREFUTABLE EVIDENCE imposes upon every officer of the court, every fiduciary, and every public servant a non-discretionary duty to act. This duty is not governed by the subjective interpretations of statutory law — which are often shaped by political interests and judicial discretion. It is governed by the immutable Laws of God, which demand truth, justice, and accountability without delay or distortion.

EXHIBIT 626 – Pattern of Procedural Starvation and Selective Docketing

Despite verified filings, proof of service, and court-accepted hardship applications, my objections were excluded from the docket. The Bronx Surrogate's Court processed my hardship application but failed to docket my objections — despite receiving them with proof of service. This was not clerical error. It was procedural starvation. It reflects a pattern of selective docketing, reputational sabotage, and institutional avoidance that now threads across multiple jurisdictions.

I now thread this exclusion into the Bronx record and demand full review of the docket history, service logs, and judicial conduct.

My 100% INDISPUTABLE EVIDENCE imposes upon every officer of the court, every fiduciary, and every public servant a non-discretionary duty to act. This duty is not governed by the subjective interpretations of statutory law — which are often shaped by political interests and judicial discretion. It is governed by the immutable Laws of God, which demand truth, justice, and accountability without delay or distortion.

EXHIBIT 627 – Wrongful Cremation and Institutional Silence

My father Eugene Pepe was cremated without my consent, without autopsy, and without toxicology. I was the only living relative in Florida, the named beneficiary on his accounts, and the sole person listed on his life insurance. Yet I was not consulted. I was not notified until weeks later. No investigation was conducted. No forensic review was ordered. This was not just neglect — it was a wrongful cremation carried out under institutional silence.

I now thread this act into the Bronx record and demand full review of the timeline, notification logs, and public safety protocols.

My 100% CONCLUSIVE EVIDENCE imposes upon every officer of the court, every fiduciary, and every public servant a non-discretionary duty to act. This duty is not governed by the subjective interpretations of statutory law — which are often shaped by political interests and judicial discretion. It is governed by the immutable Laws of God, which demand truth, justice, and accountability without delay or distortion.

EXHIBIT 628 – Public Testimony and Facebook Archive

I have gone public in Florida — and I am prepared to go public in the Bronx. My testimony is threaded across multiple platforms, including:

- My Facebook group dedicated to exposing estate fraud and law enforcement obstruction
- Other public groups focused on Carmine Marceno, Lee County corruption, and judicial misconduct

Carmine Marceno, Lee County Sheriff, is currently under federal investigation for money laundering, kickback schemes, and acceptance of illicit gifts. I have already submitted a text statement from Deanna Williams, Marceno's former girlfriend, who stated: "Carmine definitely gets paid to cover up murders."

This is not speculation. This is documented in testimony. I now thread this public testimony into the Bronx record and demand full review.

My 100% UNDENIABLE EVIDENCE imposes upon every officer of the court, every fiduciary, and every public servant a non-discretionary duty to act. This duty is not governed by the subjective interpretations of statutory law — which are often shaped by political interests and judicial discretion. It is governed by the immutable Laws of God, which demand truth, justice, and accountability without delay or distortion.

EXHIBIT 629 – Coordinated Falsehoods, Obstruction, and Criminality in the Estate of Eugene Pepe

This exhibit threads together sworn contradictions, verified misconduct, and institutional obstruction surrounding the death and estate of Eugene Pepe. It demands full judicial review across all venues.

It includes:

- Steven Pepe’s admission of estrangement and extortion
- Contradictions in mail handling and retirement account concealment
- False statements by Mike Peterson and strategic perjury
- Biohazard break-in authorized without legal basis
- Criminality ignored by law enforcement
- Notification disparity and beneficiary exclusion
- Multiple witnesses stating Linda, Steven, and Anthony Cattano “killed your father”
- Patterned targeting and RICO allegations
- Procedural starvation and selective docketing
- Public testimony and federal investigation into Carmine Marceno

Each section ends with a rotating declaration of legal and moral mandate. I now thread this exhibit into the Bronx record, appellate filings, and federal archive.

My 100% IRREFUTABLE, INDISPUTABLE, CONCLUSIVE, AND UNDENIABLE EVIDENCE imposes upon every officer of the court, every fiduciary, and every public servant a non-discretionary duty to act. This duty is not governed by the subjective interpretations of statutory law — which are often shaped by political interests and judicial discretion. It is governed by the

immutable Laws of God, which demand truth, justice, and accountability without delay or distortion.

Any failure to act in the face of this evidence constitutes willful blindness, dereliction of duty, and complicity in ongoing harm. Every silence is now documented. Every betrayal is now weaponized. You are now on notice.
